

### REMARKS

The Applicants request entry of the foregoing amendment to replace the Sequence Listing with the Subsequent Sequence Listing in the above-identified application. Accompanying this amendment is a Substitute Sequence Listing in both computer readable and paper forms, which indicates the location and definition of all amino acids denoted as "Xaa" and all nucleotides denoted as "n" within the Sequence Listing. The Applicants have included a Statement Pursuant to 37 C.F.R. §1.821(f) that the disclosures in the computer readable and paper forms are the same and do not introduce new matter into the disclosure of the application. Pursuant to 37 C.F.R. §1.823 the pages of the Substitute Sequence Listing have been numbered independently of the numbering of the remainder of the application.

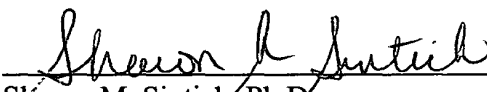

Submitted herewith are 10 executed declarations. Specifically, while all declarations list all inventors, the first nine declarations are executed individually by inventors and the last declaration is executed by five inventors. Also enclosed is a copy of the Notice to File Missing Parts, together with our check of \$265 in payment of the missing parts surcharge (\$65) and the fee for the two month extension of time (\$200).

The Commissioner is hereby authorized to charge any deficiency in the amount enclosed or any additional fee which may be required under 37 C.F.R. §1.16 or §1.17 to deposit account number 13-2855. Please refund any overpayments to Marshall, Gerstein & Borun at the address below.

Respectfully submitted,

MARSHALL, GERSTEIN & BORUN  
6300 Sears Tower  
233 South Wacker Drive
